GUIDE TO AIP AND MEMBER SOCIETY NEWSLETTERS

A thorough representation of societies across the physical sciences, AIP and [AIP member societies](#) publish a myriad of journals to a variety of audiences. Explore some of the additional, smaller published offerings of AIP and AIP's member societies in the NBLA reading room or online. Most member society journals will have a current issue of their newsletter in the reading room; these issues are later moved to the library stacks or the archives. Most publications are also available online and are linked below.

Key:

READING ROOM – *current issues are in the reading room, on the serials wall*

ONLINE – *issues are online and available to all from the link*

MEMBER ACCESS – *issues are only available online to current members of that society from the link*

STACKS – *issues are available in the library 4th floor stacks*

ARCHIVES – *the collection is in the archives with earlier issues--ARCHIVES will link you to the archives record, see the reference librarian for any question about past issues.*
